

Statement of Work

Dor

Processing Designer:

Twilio Integration, Heroku Server build, Powerpoint, API implementation, Github repository

Eric

Processing Designer, Interface Designer:

Implemented Java classes to access and manage collection of contact information from user's phone, as well as access compliments for display to the user.

Connected back-end logic to front-end .xml. Project video editing.

Philip

GUI Designer, Interface Designer:

Implemented activities, activity flow, and basic app template. Designed app icon, logo, and button graphics. Implemented the animated text viewers and other widgets in both .xml and .java files. Handled the basic process of using and showing contacts and compliments on screen.

(Shared)

Project Lead, Documentation Manager:

Collective brainstorming, distribution of tasks and most documentation. Shooting of video.
